

## **Slime Time - Giant Bucket**

**Make it by the cup, make it by the bag, make it by the bucket! No matter how you make it, it is  
FUN, FUN, FUN!**

### **How To Make a Bucket of Borax Slime**

#### **Large Batch of Slime (30 Kids)**

**In a large bowl**

**Add:**

**30 Cups of Warm Water**

**30 tbsp Borax**

**Stir**

**Allow to sit while you are preparing the glue/water bucket**

**In a Large Bucket**

**Add:**

**15 Cups of Glue**

**15 Cups of Water**

**Food Coloring (Any color - Tint to your liking)**

**Stir**

**As you are stirring, talk about all the sin that we have in our lives...open it to discussion.**

**Allow the children to take turns stirring.**

**Continue to talk about sin while they are stirring.**

**When everyone has had a turn stirring, stop for a moment and tell the children that when we  
ask God to forgive us of our sins...He will!**

**And when we ask Him to come into our hearts to be our Lord and Savior...He will...and our  
hearts will become transformed. Meaning that they will change.**

**Just like when we add the borax mixture to the glue...it changes.**

**Add the Borax Mixture to the Glue Mixture...stir until the slime is thick.**

**Pour out any excess water**

**With both hands, lift the slime out of the bucket for all to see...allow the water to drip from the slime.**

**Tell the children that when we ask God to forgive us of our sins...God will remove our sins.**

**Just like when we hold up the slime...all the yucky slimy water is removed. And we are left with something really nice.**

**God can do the same thing with our hearts...He can separate all the yucky...sin and leave us with something really nice. A heart that loves Jesus, loves others, and wants to follow Jesus and do what is right.**

**Our hearts become something new....just as our glue became something new when we added the Borax.**

**Hold up the blob of slime and then put it into a large bowl.**

**Let the children touch the slime and then hand it off to a volunteer who will place slime into small bowls or the children to play with.**

**When finished, place the slime into baggies for each child to take home at the end of the evening!**
